

I am writing you with a concern about expanding service with the LPFM. I was informed that LPFM could take priority over current FM translators. I listen to one of those stations that could be affected by the new proposed rules. K-LOVE radio 105.5 is very important to me and my family. We receive much encouragement from their music and the different ministries they offer at K-Love. In our community there is always many vehicles that have the K-Love bumper sticker on them, so I know other people are being impacted just like us. We hear stories about listeners calling in about a certain song that was played that saved their lives. Listeners can call in and talk to a Pastor on site that can help in their time of desperation. I feel if only we had more radio stations that really cared about the people, we would have a lot less suicides in this country. I ask you to please consider the impact of not having K-Love radio on the air anymore. I could go on and on about the lives that are being changed by K-Love radio but I would have to write a book. Please keep things the same, change is not always good. Thank you for your time.....Mrs Aimee Harrenstein
